

For Reefer Trailer

Extension Set

DC-DC Charger for 24V – 12V circuit

Product Data Sheet - Transportation

Rev.: 01/25

Item No.: 40006

Extension kit / 24V to 12V, 1,5A

Description

Our extension kit serves as a power converter that connects different batteries. It consists of a DC-DC charger tailored for 24V to 12V circuits and delivers a stable power output of up to 21W.

The extension kit is designed with an integrated aluminium alloy shell for efficient heat dissipation and resistance to high temperatures.

The set contains:

1 pcs. DC-DC Converter

Product Data

RATED POWER OUTPUT	21W
INPUT VOLTAGE	18-30V
OUTPUT VOLTAGE	14,6V
OUTPUT CURRENT	1.5A
EFFICIENCY	92%
COOLING	NATURAL
NO-LOAD POWER	<0,1W
TEMPERATURE RANGE	-20°-80°C
PROTECTION	Over-voltage, over-heat, over-current
DIMENSIONS	L=72 mm, W=56 mm, H=22 mm
WEIGHT	0,18 kg

Instructions

Please read the instructions in the manual before installation and operation.
